

DRMS Precious Metals ISAs

The Defense Reutilization and Marketing Service (DRMS) has made Interservice Support Agreements (ISAs) between various Federal Civil Agencies (FCA) and DRMS. These ISAs provide support service (equipment/supplies) for the recovery of silver from hypo/photographic solutions and for DRMOs to receive the turn-ins of precious metals bearing materials such as scrap film, electronic equipment, silver flake/cells/cores/cartridges, batteries, etc. These agreements establish policies, principles and procedures under which DRMS will provide support to the agencies to utilize the DoD Precious Metals Recovery Program (PMRP) conducted by DRMS for DLA. Agencies are not charged for turn-ins of precious metals bearing scrap/materials to the DRMOs. The following are the agencies that are participating in the DoD PMRP by agreement between DLA/DRMS:

Department of Transportation (DoT)

Department of Energy (DoE)

Department of Justice (DoJ)

Department of Interior (DoI)

Department of Agriculture (DoA)

Department of Treasury

Department of Health & Human Services

Department of Labor (DoL)

Library of Congress

National Aeronautics and Space Administration (NASA)

Indian Health Services

Questions from FCA regarding their ISA can be submitted to the PMRP POC.
